

Whatever goes into the storm drains today will end up in the streams and lakes tomorrow.

Our Water. Our Future.

Keep pollution out of storm drains

Storm drains and roadside ditches lead to our lakes and streams. **So, any oil, pet waste, leaves, or dirty water from washing your car or other outside activities** that enters a storm drain gets into our lakes and streams.

How can you help? Simple. **Use a broom instead of a hose** to clean your driveway. Keep leaves, grass clippings, and trash away from the storm drain, and **never dump motor oil, pet waste, or dirty, soapy water** down the storm drain.

Remember, only rain in the drain!

Brought to you by the City of Bellefontaine. Please see our engineering department website for more info on our storm water management system. www.ci.bellefontaine.oh.us/engineering
